How to crack JEE Main in 3 Months?

NEET is the only medical entrance test in India. Being a NEET aspirant, here's all you need to know about tips to crack NEET 2017.

Understand NEET

This is a medical test on a national level regulated by the central board of secondary education. This is a standard exam for both private and Indian government medical colleges. It was AIPMT earlier but replaced by NEET from 2016. It is mandatory for every medical college to fill their seats by the grades in NEET examination.

Know your Syllabus

The student needs to make sure that are well updated with the latest syllabus. The preparation for this exam is based on units of class 11 and class 12. Hence, give equal priority to syllabus of class 12 and 11.

Do not limit to NCERT

A student needs to note one thing that NEET syllabus is set by reviewing different state curriculum. It is regulated by the central board of school education and council board of school education. Hence, do not limit your preparation to **NCERT Books** but try to refer latest competitive books to study for NEET exam.

Plan your Study

A well structured and planned schedule serves as a booster for NEET preparation. The student needs to have a clear plan for long term and short term idea for any exam. You can make a priority list of units that carry maximum marks along with the time allotment. This will help you to cover maximum chapter in a shorter time.

When you are done with a particular unit, list all the important points of every concept that would be your own notes. At the time of exam, these notes acts as a revision material and minimizes the chances that you forget while answering in an exam, since the notes are prepared by you.

Take Mock tests

Try to solve as many previous year question papers along with mock tests from sample papers. The more you solve, the better you get an idea on different possibilities a particular question can be asked and number of times it is appeared.

To crack **NEET Exam**, all you need to have is a right mind-set along with proper preparation styles. If the above mentioned points are considered along with your desire to clear NEET, there is nothing that can stop you. Moreover, doctors are still considered to be the gods on the Earth and since you are on the same path, a whole hearted dedication leads you all the way to prosperity.
